

Working groups

An important dimension of this congress is the place reserved the working groups set up inside, but also outside, the AEPEA.

As such the organizers and the national sections of the AEPEA request the colleagues involved in clinical reflections or research projects to make this known on the occasion of this congress.

For that purpose, we ask them to indicate the existence of a workgroup, its theme, and their interest in participating in the congress in Brussels by sending an e-mail directly to Jean-Paul Matot, president of the local steering committee (jpmatot@skynet.be).

The existence of the group, its working topic and the e-mail address and phone number of a contact-person will then be put on-line, in order to allow colleagues or other groups to establish contact and to develop links and collaborations with them. The groups will also be announced in the Newsletter.
