

AEPEA Belgian workshop 2012

In 2012-2013, we propose to the members of the Belgian section of the AEPEA a workshop dealing with "Psychoanalytical conceptualizations of the body in the development of the child and in the psychopathology". This workshop, which is also organized in the context of the AEPEA 7th Congress which will take place in Brussels in May, 2014, will be held on three Fridays mornings from 9 to 12 AM, on November 16th, 2012, March 1st and May 3rd, 2013.

The Pediatric Medical Center Clairs Vallons will host the workshop (24 rue de Mont Saint-Guibert, 1340 Ottignies). Every session will include a presentation of about 45 minutes and will be followed by a discussion. Written texts will be produced at the end of these sessions. The session of November 16th, 2012 will be introduced by a presentation of Jean-Paul Matot on conceptualizations of the body in the works of D.W. Winnicott, and their repercussions in the works of R. Roussillon. The session of March 1st, 2013 will be introduced by a presentation of Prof. Antoine Masson concerning the conceptualizations of the body in the work of J. Lacan. In the session of May 3rd, 2013, Prof. Pierre Delion (Lille) will reflection upon and expand on the themes of the first two sessions. Preliminary registration to the workshop is required. Registration is free of charge and is reserved to the members of the AEPEA. Participants should send an e-mail to Mrs Lydia Duquenoy (lydiaduquenoy@clairsvallons.be) at least one week before the session. The workshop has been approved for accreditation.
